Week 7 Sprint Report

Overview

During the 7th and Christmas week, Johannes created more functional way to handle cart data and its functions.

Accomplishments

Joel:

-

Jan:

-

Muhannad/Shadi:

 -

Johannes:

Continuing Muhannad's work on the toolbar, Johannes moved cart's functionality to work with the toolbar and moved the users' functions (Login, Logout, User account, My orders) to single dropdown menu in the toolbar.

Challenges Faced

Working with other people's code.

Goals for Next Week

 Check for bugs and ready the application for the final sprint.

Conclusion

Application looks and feels a bit more professional.

 Sprint Metrics

Total hours spent: ~20 hours.
